I asked for them to confirm their responses by COB Tuesday. I think we should have some interest as we are doing some flame retardants in the next 40.
Thanks for checking.

Subject: For Approval: Draft Response to NTP

Provided below is my proposed response to the National Toxicology Program on their list of chemicals for the next Report on Carcinogens. This includes responses from OAR and OLEM. OCSPP, OW, and ORD did not respond, but I think the list is still comprehensive. Please let me know if you would like any changes before I send it. Sorry for the short turn-around, but I'm looking to send later this afternoon.
